

# Yonsei mBiome Conference

**June 20 (Mon), 2022**

Chang Ki Won International Conference Hall (7F), Yonsei-Samsung Library

**Hosted by**

Yonsei Frontier Lab (YFL)  
Yonsei Microbiome Initiative  
BK21 Project of Yonsei Education & Research Center for Biosystems  
BK21 Project of Yonsei Advanced Medical Science Research and Education

**Program**

13:30 - 14:00

Registration

14:00 - 14:20

Opening Ceremony

Keynote lecture

14:20 - 15:00

Dr. Peer Bork (Director, European Molecular Biology Laboratory in Heidelberg)  
Microbiomics of the human gut and the planet

Session 1

15:00 - 15:30

Prof. Jihyun F. Kim (College of Life Science and Biotechnology, Yonsei University)  
Interplay between microbiome and health, disease, aging, and the environment

15:30 - 16:00

Prof. Dong Eun Yong (Yonsei University College of Medicine)  
Regulation for faecal microbiota restoration

Session 2

16:20 - 16:50

Prof. In Suk Lee (College of Life Science and Biotechnology, Yonsei University)  
Immune Trait Associated Microbiome (ITAM) of the human gut microbial dark matter

16:50 - 17:20

Prof. Sang Sun Yoon (Yonsei University College of Medicine)  
Identification of a microbial species with the capability of degrading trimethylamine, a risk factor for cardiovascular diseases and its preclinical efficacy

17:20

Closing Ceremony
